### **18. Opening of proposals**

The procuring entity will open the Proposals in the presence of a Committee formed by the Head of the procuring UNDP entity.

### **19. Clarification of proposals**

To assist in the examination, evaluation and comparison of Proposals, the Purchaser may at its discretion, ask the Offeror for clarification of its Proposal. The request for clarification and the response shall be in writing and no change in price or substance of the Proposal shall be sought, offered or permitted.

### **20. Preliminary examination**

The Purchaser will examine the Proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the Proposals are generally in order.

Arithmetical errors will be rectified on the following basis: If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the Offeror does not accept the correction of errors, its Proposal will be rejected. If there is a discrepancy between words and figures the amount in words will prevail.

Prior to the detailed evaluation, the Purchaser will determine the substantial responsiveness of each Proposal to the Request for Proposals (RFP). For purposes of these Clauses, a substantially responsive Proposal is one which conforms to all the terms and conditions of the RFP without material deviations. The Purchaser's determination of a Proposal's responsiveness is based on the contents of the Proposal itself without recourse to extrinsic evidence.

A Proposal determined as not substantially responsive will be rejected by the Purchaser and may not subsequently be made responsive by the Offeror by correction of the non-conformity.

### **21. Evaluation and comparison of proposals**

A two-stage procedure is utilised in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal being opened and compared. The price proposal will be opened only for submissions that have passed the minimum technical score of 70% of the obtainable score of 700 points in the evaluation of the technical proposals.

The technical component, which has a total possible value of 700 points, will be evaluated using the following criteria:

- a. the firm's experience as well as demonstrated experience and capacity in the specific field of the assignment (20%);
- b. the qualifications and competence of the personnel proposed for the assignment for a total of (40%); and
- c. the approach in implementing the tasks described in the Terms of Reference (40%).

If the Offeror's technical component achieves the 70% threshold or above, then the Offeror's price proposal will be taken into account, as follows.

The total amount of points allocated for the price component is 300. The maximum number of points will be allotted to the lowest price proposal that is opened and compared among those invited firms/institutions which obtain the threshold points in the evaluation of the technical component. All other price proposals will receive points in inverse proportion to the lowest price; e.g.,

$$\frac{[\text{Total Price Component}] \times [\text{US\$ lowest}]}{[\text{US\$ other}]} = \text{Points for other Proposer's Price Component.}$$

Please note that the UNDP is not bound to select any of the firms/institutions submitting proposals. Furthermore, since a contract will be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to UNDP's general principles, including economy and efficiency, UNDP does not bind itself in any way to select the firm offering the lowest price.

The contract will be awarded to the Contractor attaining the highest total of combined technical and price proposal marks.
